TO WHOM IT MAY CONCERN

I, Dr John E Greenwood AM, Director Burns Unit, Royal Adelaide Hospital have reviewed the literature pertaining to the Burnaid product. In my professional opinion, I believe that Burnaid has a defined role in acute burn management, specifically as a cooling and pain-relieving first aid measure. To this end, Burnaid has been included in Emergency Management of Thermal Injury Patient Pathways generated by the Adult Burns Service at the Royal Adelaide Hospital.

Faithfully,

A handwritten signature in dark ink, appearing to read 'John E Greenwood', with a long horizontal line extending to the right.
